

Bloomin' Marvellous:

Mick Becei our Parks Operations Co-ordinator from Central has advised that the roses in the New Farm Gardens have never been so spectacular.

Local Asset Services introduced a trial this year to use clean and green products and totally eliminate the use of organophosphates, by working through the Risk Assessment process.

Congratulations on "making a difference" Mick Becei, Ross McKinnon and crews.

Mick states that his secret ingredients are Charlie Carp and Neem Oil.
